

Disability insurance

Short term disability

Disability insurance covers a part of your income, so you can pay your bills if you're injured or sick and can't work.

Disability may be more common than you might realize, and people can be unable to work for all sorts of different reasons. There are times when many disabilities can be caused by illness, including common conditions like heart disease and arthritis. However, many disabilities aren't covered by workers' compensation.

Who is it for?

If you rely on your income to pay for everyday expenses, then you should probably consider disability insurance. It helps ensure that you'll receive a partial income if you're injured or too sick to work.

What does it cover?

Many disability insurance plans pay out a portion or percentage of your income if you're diagnosed with a serious illness or experience an injury that prevents you from doing your job.

Why should I consider it?

Accidents happen, and you can't always anticipate if or when you'll become sick or injured. That's why it's important to have a disability policy that helps you pay your bills in the event of being unable to collect your normal paycheck.

You will receive these benefits if you meet the conditions listed in the policy.

Partial income replacement

Mike injures his back in a bicycle accident and can't work for 13 weeks.

Unpaid time off work: **13 weeks**

Elimination period: **1 week**

After a 1-week elimination period following his accident, Mike's Guardian Short Term Disability policy kicks in and replaces **\$400** of his weekly income for the remaining **12 weeks** of his rehabilitation.

This gives him a total of **\$4,800** to cover his expenses while he's unable to work.
